		VANGUARD (1938)	5.00
		WATTII (Introd. 1927)	1.00
		WITCH OF SALEM (1938)	20.00

NEW INTRODUCTIONS FOR 1939

CATHEDRAL (1939).—The Vinaceous S., Dahlia Purple and Burnt Lake F., buff and brown throat, and Honey Yellow, Olive-Ocher, and russet tones in the center illuminate so beautifully when seen against the sun as to suggest the stained glass of cathedral windows; 5 ft. This imposing plant is particularly effective when planted back of the curiously similar but lower Penumbra, in association with such yellows as Alta California; late mid-season\$10.00

CHEERY (1939)—Not large, but a gay and sprightly flower on the order of Tourmaline except that its trend of coloring is toward blue rather than pink; well branched; 30 in.....\$5.00

CHIEF JOSEPH (1939)—A very late large-flowered rich red, the S. between Terra Cotta and Etruscan Red; F. Oxblood Red to Maroon with a sheen of Diamine Brown; beard Cadmium Yellow; an outstandingly colorful plant combining Mauna Loa, Sequoiah, and King Tut in its parentage; 3½ ft.....\$15.00

COPPER BEAUTY (1939)—A very large coppery-red bicolor blend of great carrying power; from the same parentage as Jubilant, but entirely different; 3½ ft.\$15.00

COPPERWING (1939).—Only moderate in size and height, but the well-formed flowers are absolutely outstanding for color; S. soft Old Gold, F. Burnt Siena overlaid Mahogany Red, the net effect a warm bright copper, set off by the Light Orange Yellow haft and Cadmium Yellow beard. The pollen of Mohican on one of its sibs yielded this remarkable break; 24 in.\$20.00

SURF (1939)—An elegantly finished smooth creamy white of moderate height; a very floriferous seedling of Purissima by Colonial; 30 in.....\$10.00

GENERAL LIST

Alberti	\$1.50	Jean Cayeux75
Blue Triumph	1.00	Junaluska	1.25
Burning Bronze	1.25	Shining Waters75

Hemerocallis, Maggie Perry....	1.00	Tulipa clusiana, per doz.....	1.00
Hemerocallis, Sir Michael Foster75	Tulipa, Advance25
Hemerocallis, Sovereign50		

EASTERN CUSTOMERS WILL FIND OUR ABILITY TO SHIP BOTH IRISES AND DAFFODILS BY EARLY SUMMER AN INESTIMABLE ADVANTAGE, GIVING THE PLANTS AN EXTRA LONG PERIOD OF ROOT-GROWTH BEFORE THE ONSET OF WINTER.

SPECIAL NOTE

Our garden is not a large one, nor grandly landscaped, but it contains its full quota of rare and interesting plants, and those who will but remember that it is simply a horticultural workshop and do not expect too much of it otherwise, are always welcome visitors. In addition to our innumerable daffodils and irises, which form a collection not easily surpassed, we grow various species of Morea and Nerine, a very fair array of freesias and Hemerocallis, and divers odds and ends of small bulbs, rock plants, peonies, herbs, and other perennials. Late spring and early summer and again the fall are in general the most favorable times to secure stock for

planting, but to view the flowers our spring months are best, February and March for daffodils and April to June for irises. Do not, however, look for any signboard at the garden beyond the street-number, for even at the cost of some business, we are devoted believers in the slogan,

KEEP THE LANDSCAPE BEAUTIFUL!

THOSE COMING FROM OUT OF TOWN MAY APPRECIATE THE CONCLUDING REMINDER THAT REDLANDS HAS BEEN GLORIOUSLY ENDOWED BY NATURE AND MOST OF ALL IN ROSE AND ORANGE-BLOSSOM TIME, IS A SIGHT WORTHY A FAR JOURNEY TO SEE.
